

With more than 50 years of experience, the Vienna Institute for International Economic Studies (wiiw) is one of the principal centres of economic research into Central, East and Southeast Europe (CESEE). We have expanded our work on European integration issues more generally to encompass not only the CESEE EU member states, but also developments in the EU and in the broader Europe and its neighbourhood. We also cover a wide variety of issues surrounding international economics. Our overall thematic research extends to macroeconomic analysis, international economics, labour markets, regional analysis and industry studies. Research projects are commissioned by national and international clients and emerge from applications to research funding agencies. We coordinate and are integrated within a large number of international research networks. For more details, please visit our website: www.wiiw.ac.at

We are looking for a

**Junior Economist specialising in tax analysis,
interested in tobacco and health issues (m/f/d)**

If you are appointed, your major tasks will be:

- To conduct applied empirical research in the context of a tobacco tax project in selected Central, East and Southeast European countries
- To collect and analyse data on tobacco taxation and its impact on public health and government revenues
- To support Eastern European researchers in their research into these topics
- To disseminate the research findings, in order to promote public debate

We are seeking someone with:

- A Master's degree in Economics, Public Policy, or a related field
- A pronounced interest in empirical research
- Knowledge and application of econometrics/quantitative research methods
- An interest in economic policy discourse
- An excellent command of English
- Ideally, Eastern European language skills (though not a requirement)
- A great capacity for teamwork

Closing date for applications: 15 November 2023

Start: as soon as possible – ideally by 1 December 2023

Initially, the contract will be for a fixed term of 14 months, but the appointment could be made permanent (subject to a satisfactory probationary period).

Monthly remuneration (14 times per year) for a 40-hour week will be € 3,286.40 gross (FWF Austrian Science Fund standard salary for a PhD candidate) or above, depending on qualifications and experience.

If you appreciate a pleasant working atmosphere in an international environment, with an interesting and broad range of tasks, we look forward to hearing from you. We support workforce diversity as a key to innovation and success and are committed to offering equal opportunities to all.

Please send your application (with a covering letter, CV, list of publications, copies of certificates in one single PDF file) to jobs@wiiw.ac.at.
