January 2023 - November 2024

Our research is primarily based on using quantitative data and methods, which allows us to take a comparative, European-wide perspective. In three sub-projects, we analyse the cyclical sensitivity of government spending in Austria (sub-project 1), the reform options for fiscal rules in the context of European debates (sub-project 2) and full employment issues linked to fiscal policy in Austria and the EU (sub-project 3).
